Dr. Gustavo Leibaschoff
Dr. Andre Berger

Dr. Leibaschoff has performed over 30,000 mesotherapy procedures over the past 25 years and teaches across the world over 20 times a year about this technique. Trained in 1982 by the originator of mesotherapy, Dr. Pistor from France who started the field of mesotherapy in 1952. Dr. Leibaschoff has written the definitive textbook on mesotherapy entitled Physiopathology of Cellulite and is the Director of the International School of Mesotherapy (ISM). More about Dr. Leibaschoff.

Dr. Berger is a visionary in the emerging field of anti-aging and aesthetic medicine, Dr. Andre Berger is the founder and medical director of Rejuvalife Vitality Institute, a comprehensive medical and aesthetic practice that is considered Beverly Hills' best kept secret. He received his medical degree from University of Ottawa and completed his residency at McGill University in Internal Medicine and Clinical Pharmacology. He is Board Certified in Emergency, Anti-Aging and Holistic Medicine and is an active member of the American Academy of Anti-Aging Medicine, the American College of Nutrition, the American Association of Clinical Endocrinologists, the American Society of Aesthetic Mesotherapy and the American Academy of Bioenergetic Medicine.

**UPGRADE YOUR KNOWLEDGE, INCREASE YOUR UNDERSTANDING OF MESOTHERAPY AND
IMPROVE THE RESULTS IN YOUR PRACTICE.**

**One day to know all the new and modern tips and protocols in Aesthetic Mesotherapy
with Dr. G. Leibaschoff and Dr. A. Berger.**

PARTICIPANT PROFILE:

This symposium is appropriate for Physicians (Dermatologists, Cosmetic Surgeons, OB-Gyns,

General Practitioners, Phlebologists, Physician Assistants and Licensed Aestheticians working in a medical environment.

A one-day comprehensive course on mesotherapy that covers site-specific formulas targeted to address cellulite, spot liporeduction, stretch marks, and facial aging by the world expert, respected lecturer, and author Dr. Gustavo Leibaschoff.

The benefit of this course should be for the practitioner who is interested in a simplified, yet comprehensive treatment program using mesotherapy.

You will learn how to select the right Site-specific Formula for each type of pathology.

The course is limited to only a few participants in order to maximize the educational experience.

About Dr. Gustavo Leibaschoff:

Dr. Leibaschoff obtained his medical degree and completed his Ob-Gyn residency at Buenos Aires University in Buenos Aires, Argentina in 1972. For more than two decades he has been dedicated to working and teaching in the fields of Aesthetic Medicine (non-invasive treatments) and Cosmetic Surgery. He is a member of several well known professional and educational societies around the world including the American Academy of Cosmetic Surgery, Member of Honor of the Australian College of Cosmetic Surgery, founding member and first president of the Argentine Aesthetic Medicine Association, and former professor of the Postgraduate School in Aesthetic Medicine at the Medicine School in the University of Buenos Aires, among others.

His experience includes being chairman of numerous International Courses and symposiums such as the ones held annually in Australia since 1999, Canada since 2003, Mexico since 2001, and Argentina since 1991.

He has participated as a faculty member in many international scientific congresses and professional societies, and has authored numerous publications in different Scientific Journals. Recently he co-authored the book "Pathophysiology of Cellulite"

Providing continuing physician medical education and training is his main goal. "There is no other way to achieve the best and safest results for patients than continuing the learning experience for the medical professional. Happy and healthy patients will be the reward."

COURSE MODALITIES: You'll have the opportunity to perform mesotherapy as much as you need in order to improve and correct the technique. We use simulators of a special material that imitates the skin and subcutaneous tissues in order to allow you the same feeling as doing the procedure on a patient with the advantage of repeating the procedure several times. When hands-on training is offered the reality is you'll have very few opportunities to perform the technique on a patient.

It is the better way to practice mesotherapy until you are ready and confident to do it into your
